Professional Summary

Motivated and detail-oriented software engineer with a solid foundation in computer science and hands-on experience in developing applications. Proficient in HTML, CSS, JavaScript, React, and Java, with a demonstrated ability to work collaboratively on projects, solve complex problems, and deliver high-quality software solutions. Eager to apply technical skills and a passion for innovation to contribute effectively in a dynamic development environment.

Skills

Frontend – HTML\CSS, JavaScript ReactJs and Java.

Projects History

Project 1: Personal Portfolio,

Tech Stack: HTML\CSS and JavaScript,

- ⦿ Developed a fully responsive portfolio website with cross-browser compatibility using HTML5, CSS3, and JavaScript.
 - ⦿ Integrated interactive features such as dynamic galleries and real-time form validation to enhance user engagement.
 - ⦿ Optimized performance with asynchronous JavaScript loading and SEO-friendly practices for faster load times and improved visibility.
 - ⦿ Showcased technical and creative skills through custom layouts, advanced functionality, and a cohesive design aesthetic.
-

Project 2: Password Generator ,

Tech Stack: React Js.

- ⦿ Built an interactive password generator application in React, allowing users to easily generate and copy secure passwords with a single click.
 - ⦿ Implemented React hooks and state management to dynamically update password criteria and regenerate passwords based on user input.
 - ⦿ Enhanced user experience with a copy-to-clipboard feature, ensuring seamless usability and quick access to generated passwords.
 - ⦿ Designed a clean, intuitive UI with responsive design principles to ensure functionality and aesthetic appeal across different devices.
-

Education

B-Tech. in CSE: 08/2021

Dr. A.P.J Abdul Kalam Technical University(AKTU) - Lucknow, UP
